# SECRET AGENT SOCIETY (SAS) FACILITATOR TRAINING COURSE

The two-day SAS Facilitator Training Course provides professionals with the knowledge and skills necessary to effectively deliver the SAS Small Group program and SAS Remote program. To be an approved SAS Provider of the SAS Small Group program, professionals must complete the SAS Facilitator Training Course. During the training, practitioners gain the knowledge and skills to:

- Assess the social functioning of children with social and emotional challenges,
- Deliver a comprehensive social skills program to children with social and emotional challenges and their parents,
- Promote the generalisation and maintenance of children’s emotional regulation and friendship skills at home and at school,
- Manage common process issues that arise when facilitating group programs for children with social and emotional challenges and their parents,
- Evaluate the effectiveness of a social skills program for children with social and emotional challenges, and
- Identify indicators that a child and/or family require additional support.

Follow-up support is provided by the Social Skills Training Institute (SST) to help practitioners tailor the program to meet individual client needs.

## SAS SMALL GROUP PROGRAM

Secret Agent Society (SAS) is a breakthrough social skills program for 8 to 12 year old children with social and emotional challenges such as Autism. The program consists of small group child sessions, parent and teacher information sessions and resources, real-life practice missions and a system to monitor and reward skill development at home and at school.

The evidence-based curriculum captivates children with its espionage-themed games and activities including a multi-level Computer Game, Helpful Thought Missile Action Game, Challenger Board Game and Secret Message Transmission Device Walkie-Talkie Game.

# THE SOCIAL SKILLS TRAINING INSTITUTE

The Social Skills Training Institute (SST) is the organisation that publishes the Secret Agent Society Program, making it available worldwide to children, parents and professionals. SST is a subsidiary of the not-for-profit Cooperative Research Centre for Living with Autism (Autism CRC) which is a world-first research collaboration. We are committed to providing communities with the training, support and resources they need to deliver high quality, evidence-based child and family interventions.
